**24-31 OF AUGUST
MASS ACTION
AGAINST GAS!
GRONINGEN**

CODE ROOD 2018

IT'S CODE RED FOR GRONINGEN AND THE CLIMATE!

Gas must stay in the ground and all the earthquake damage needs to be compensated. But the NAM, Shell and Exxon keep on pumping and the government is allowing this to happen.

THAT IS WHY WE ARE DRAWING A LINE: from the city to the countryside, from Groningen and beyond, we are joining forces around Groningen's liberation day on the 28th of August. With the first mass action of civil disobedience in Groningen we are sending out a powerful signal: leave the gas in the ground! Everyone can contribute, experience is not required.

Together with people from Groningen, Code Rood is also organising an **ACTION CAMP IN GRONINGEN (Holland)** from 24 to 31 August. Here, we will offer a wide programme of workshops, trainings and open discussions about gas extraction and a fossil free world. In the evenings there'll be a campfire and music. You can stay at the camp overnight, or drop by for a day visit.

ARE YOU IN? Go to code-rood.org for more information, upcoming info evenings and action trainings, and to sign up for the newsletter!

CIVIL DISOBEDIENCE!
FOR GRONINGEN!
