

ACTION DAY | SATURDAY, 24 JUNE 2017

CODE ROOD is calling for an act of mass civil disobedience for the protection of our collective future. On 24 June 2017 we will sound the alarm: **it's CODE RED for the climate**. Two years after the historic ruling in the Urgenda courtcase, we will draw a line in the **port of Amsterdam**, the largest gasoline port in the world and, after Rotterdam, the largest coal port in Europe. There is no time to lose. Let's get rid of the destructive and polluting fossil fuel industry!

IT'S UP TO US

CLIMATE CAMP | 22 – 26 JUNE

Only when we join forces can we break the power of the fossil fuel industry. The climate is changing faster than politicians are taking the required measures, so we are building a movement that dares to go a step beyond ordinary protest. A climate camp is being organized from Thursday, 22 June to Monday, 26 June. The exact location will soon be announced. **Plan now to come as early as possible** to prepare yourself for the action on June 24.
